CHOICE...**
...NOW!

UNIVERSITY OF WESTERN ONTARIO FREEDOM PARTY ASSOCIATION

What is the campus association?

The **University of Western Ontario Freedom Party Association** is an on-campus extension of the **Freedom Party of Ontario**, a fully-registered provincial political party which promotes individual rights and freedoms.

Freedom Party believes that the *purpose of government* is to *protect* our freedom of choice, *not* to restrict it.

The campus club was formed to provide a forum to discuss and promote political, economic, and social issues from a laissez-faire, free-market point of view. By emphasizing less government intervention and the recognition of *individual* (as opposed to *group*) rights, we hope to create an awareness of our ever-deteriorating individual freedoms and responsibilities and to help reverse this dangerous trend.

Why should I join?

If you believe in the concepts of individual freedom and liberty, one of the major advantages of joining our campus club is to meet others who share that belief.

By working together with such people, you will learn about or expand your knowledge on freedom. The experience and input of others, combined with **Freedom Party's** research and information resources, will go a long way towards establishing the necessary foundations to secure an intellectual environment of freedom, which in turn will ultimately secure a free society.

By helping attract new members to the campus association, the party, and to political activity, you'll be introducing the concept of, and benefits of, freedom to others. As an association member, you can participate in the planning and execution of strategies aimed at accomplishing the above and to counter the destructive prevailing philosophies held by the three traditional parties in Ontario and Canada.

Most of all, you'll have fun doing it.

What do we do on campus?

The **UWO Freedom Party Association** produces newsletters, stages debates, and presents speakers on a range of freedom-related topics concerning those confined to the university to local, provincial, federal, and international issues.

We want to challenge other political parties and their campus associations to defend their positions and to explain why they think they should have a right to restrict our individual freedoms.

As an association member, you are encouraged to engage in letter writing to both campus newspapers (the *Gazette*, *Western News*) and also to the *London Free Press*. Members are also encouraged to bring forth ideas, organize events, write articles and personal letters, and to *talk* to others about **Freedom Party**.

The ultimate purpose of all this activity is to instruct, educate, and introduce others to a laissez-faire perspective on the proper role of government.

As a member of a relatively new, small association, we encourage you to become as involved as possible. If you want to make a difference with us, you *can*. The *choice* is yours.

Wage gap blamed on women's own views

Marriage and upbringing — not employers — are keeping women from closing the wage gap with men, a senior economist with the Fraser Institute told about 35 persons Wednesday at the University of Western Ontario.

It is as if we are having a 100-yard dash and women are carrying a 30-pound weight on their back, Walter Block said during a speech sponsored by the London Freedom Party.

The Fraser Institute is a non-profit, conservative "think tank" in Vancouver which Block said has produced about 50

past 10 years, including recent books opposing equal pay for work of equal value and affirmative action.

The Ontario government estimates women on average earn 38 per cent less than men. In presenting a similar array of figures, Block warned statistics are misleading.

He said many married women view their jobs and salaries as secondary to their husbands'. As well, he said many women leave the work force to raise their children or to be

Statistics or homemakers, although

Block said they spend at least half the money their husbands earn.

He said when the salaries of men and women who have never been married are compared, women earn 10 per cent less than men and in

ductivity. He said in a free enterprise system, if women were producing the same but earning less, employers would be snapping them up. If women were being discriminated against on a broad basis, then Block said it should follow that

What resources does the campus association have to offer?

The **UWO Freedom Party Association** is the only political campus club that publishes its own regular newsletter, the *Freedom Forum*. Depending on the input of its members, anything is possible.

Members are welcome to visit the offices of **Freedom Party** where they can have access to literature, audio cassettes, video cassettes, speakers, subsidiary publications, books, research information, computer services, and organizational assistance.

*"UWO, London, Ontario, and Canada need NEW voices and ideas, not merely the tired cliches of the traditional parties. We want to promote new solutions to old problems that **don't** involve governments, be they parliaments, city councils, or our own UWO Students' Council. We support the protection of individual rights, not special interests. Through our campus association, you too can make a difference: a difference which benefits everyone."*
