**YOUR FREEDOM PARTY  
REPRESENTATIVE IN  
ELGIN**

**IT'S OKAY TO VOTE 'NO'.**

**A personal message from**

**RAY MONTEITH**

We must put Canada first.

The Charlottetown deal will promote narrow regional interests. This deal takes the constitution off the front pages of our newspapers and into the back-rooms where provisions can be manipulated in the interests of politicians and powerful interest groups at the expense of ordinary Canadians. I do not trust these men to redesign our country.

Voting 'NO' is not a test of your love for Canada. I too love Canada and want it to stay together.

The deal has been called "a basis for future negotiations", but it will do nothing to make the government more accountable to Canadians. It will not unify the country, but split Canadians further apart.

Let's all stand tall together.

**On October 26, vote**

**'NO'**

**FOR a unified Canada.**
