

POLITICS IS PERSONAL

When it comes right down to it, most people couldn't care less about **politics**, and quite frankly, we can't blame them.

Almost every decision made for **political** reasons raises our taxes, reduces our choices, and ultimately, restricts our freedom. Even worse, many of us feel totally helpless about the choices that politicians are making for us, and frustrated when we discover that we are denied the right to make choices for ourselves.

In Ontario, our *individual freedom of choice* is fast disappearing. Many of our most important choices are being made *for us* by other people, usually bureaucrats and politicians. Yet, all of us must bear the responsibility of supporting their choices, even if many of us disagree with the choices we're forced to support.

You know what we're talking about: favouritism, special privilege, government waste, bureaucracy, strikes, taxes, red tape, censorship, accommodation shortages, Sunday closing laws, labour monopolies, business monopolies, massive government debts, and laws that favour some at the expense of others.

If you think that none of these issues has a direct effect on your life, your choices, even your happiness --- look again.

You might come to notice how the politicians of the traditional parties are really all the same; they all share a common belief that *they* should be making *our* choices for us, and that the only purpose of elections is to give them the power to do so.

Unfortunately, whenever we give politicians the power to make our choices for us, those choices simply aren't ours to make anymore, and that hurts us all.

Freedom Party

FREEDOM PARTY believes that the *purpose of government* is to *protect* our freedom of choice, *not* to restrict it.

What Ontarians need today are elected representatives who believe we have the right to make our choices for ourselves. If there's one thing we *don't* need, it's more politicians who want to take our choices away from us.

We need elected representatives who are committed to standing up for *individual rights*, not for *special interests*. We need a political party that believes the purpose of government is to *protect* our individual freedom of choice, *not* to take it away from us.

What Ontarians need more than ever before is a *choice* --- a new choice, now!

Freedom Party may be new, but it's no "fringe" party. It's a **major party** just getting started.

Every **Freedom Party** policy is *consistent, integrated, and based on principle* --- the principle of *individual freedom* --- the only principle that separates *free* societies from *state-controlled* societies.

While **Freedom Party's** "live and let live" philosophy may not be popular with the traditional parties, that's what distinguishes **Freedom Party** from the rest. A vote for *any* of the traditional parties is the same as voting for *all* of them. A vote for **Freedom Party** is a vote for **yourself**.

We don't have to let ourselves be pushed around by politicians, bureaucrats, and special interests. We believe that each and every responsible individual has a *right* to make his or her own choices. If you feel the same way, then you owe it to yourself to explore **your new choice now --- FREEDOM PARTY!**
