

## About Freedom Party

Since 1984, Freedom Party of Ontario (“FPO”) has been a registered political party under the laws of the province of Ontario.

FPO’s objectives are:

- (a) to encourage voters to vote for FPO candidates in provincial elections and by-elections;
- (b) to influence government through the election of FPO members of the Ontario provincial Legislature, for the better protection in Ontario of every individual’s life, liberty and property; and
- (c) to build and support the FPO as an organization of people who will work toward the achievement of objectives (a) and (b).

FPO has a philosophy about how the government should make and enforce decisions and laws. It can be summed up briefly as a commitment to reality, reason, self, and consent. By “reality”, we mean that government decisions should be founded only upon facts and claims that are supported, ultimately, by physical evidence. By “reason”, we mean that government decision making should be strictly logical, and should ignore claims, conclusions, or decisions founded upon intuition, majority whim, faith, uncertainty, or other non-rational means. By “self”, we mean that government must respect your rational pursuit of your own happiness, and must not make you your neighbour’s keeper. And, by “consent”, we mean that government must make and enforce laws that prevent anyone from taking your life, liberty, or property without your consent.
