

POLITICS IS PERSONAL

When it comes right down to it, most people couldn't care less about politics, and quite frankly, that's entirely understandable.

Almost every decision made for political reasons raises our taxes, reduces our choices, and ultimately, restricts our freedom. Even worse, many of us feel totally helpless about the choices that politicians are making for us, and frustrated when we discover that we are denied the right to make choices for ourselves.

In Ontario, our individual freedom of choice is fast disappearing. Many of our most important choices are being made for us by other people, usually bureaucrats and politicians. Yet, all of us must bear the responsibility of supporting their choices, even if many of us disagree with the choices we're forced to support.

We all know the symptoms: political favouritism, special privilege, government waste, bureaucracy, strikes, taxes, red tape, censorship, accommodation shortages, labour monopolies, business monopolies, massive government debts, and laws that favour some at the expense of others.

If you think that none of these issues has a direct effect on your life, your choices, even your happiness --- look again.

You might come to notice how the politicians of the other Ontario parties are really all the same; they all share a common belief that they should be making our choices for us, and that the only purpose of elections is to give them the power to do so.

Unfortunately, whenever we give politicians the power to make our choices for us, those choices simply aren't ours to make anymore, and that hurts us all.

Freedom Party

That's why Freedom Party has always believed that "the purpose of government is to protect our freedom of choice, not to restrict it."

What Ontarians need today are elected representatives who believe that Ontarians have the right to make their choices for themselves. If there's one thing we all don't need, it's more politicians who want to take more of our choices away from us.

We need elected representatives who are committed to standing up for individual rights, not for special interests. We need a political party that believes the purpose of government is to protect our individual freedom of choice, not to take it away from us.

What Ontarians need more than ever before is a choice --- a new choice --- and now they have one: **Freedom Party.**

Every Freedom Party policy is consistent, integrated, and based on principle --- the principle of individual freedom --- the only principle that separates free societies from state-controlled, unfree, and stagnant societies.

While Freedom Party's 'live and let live' attitude may not be popular with the other parties, that's what distinguishes Freedom Party from the rest. A vote for any one of the other Ontario parties is the same as voting for all of them. A vote for Freedom Party is a vote for yourself.

We don't have to let ourselves be pushed around by politicians, bureaucrats, and/or special interests. We believe that each and every responsible individual has a right to make his or her own choices. If you feel the same way, then you owe it to yourself to support your new choice now --- **Freedom Party!**
