"In view of my experience with the three major political parties, Liberal, Conservative, and NDP, I am breaking a promise which I made to myself, that of being involved with any political party.

"I have decided to support the Freedom Party of Ontario. As you know, I have my own financial problems in fighting the Retail Business Holidays Act, however, I would like to help you in other ways such as...speaking about my personal fight for freedom which is being abused."

PAUL MAGDER

By now, almost everyone in Ontario has heard about **Paul Magder**, the Toronto furrier (*Paul Magder Furs*) who has been charged nearly 300 times, simply for the peaceful act of serving his customers ---on a Sunday.

A man of principle, Paul has taken the fight for his right to serve his customers all the way to the *Supreme Court of Canada* where, after an initial setback, he vowed to continue his crusade for the freedom that is rightly his.

**But, just as importantly,
that right belongs to you too!**

For that reason, the officially registered **Freedom Party of Ontario** is proud to provide this opportunity for all of us to show Paul how much we appreciate the risk and effort he has taken on our behalf.

**Join us for an
evening with Paul Magder.**

Those attending our April 21st dinner in honour of Paul's efforts are in for a pleasant and enjoyable experience --- plus a few surprises.

The evening will feature, in addition to **Paul Magder** himself, **three other speakers** who will be sharing their views and perspectives on the subject of our freedom to choose on Sunday. *All of these speakers* have played important roles or taken personal risks in their fight for freedom.

Moreover, you'll share an evening of relaxation and conversation with others of a like mind. After the speakers have finished, you'll be able to ask questions, share experiences, and personally meet **Paul Magder**.

You'll discover a new political option and a fresh way of looking at the issue of freedom of choice in Sunday shopping. Find out what the real issue behind Sunday closing laws is all about --- and more importantly, *what it's not about*.

Take advantage of this opportunity to show your support to a courageous man whose personal risk and initiative is the stuff that freedom is made of.

For a \$50 (minimum) investment, (with a net cost as low as \$12.50), you couldn't find a better way to show that support!

Other Speakers Include:

As director of the Department of Public Affairs for the *Seventh-day Adventist Church of Canada*, **D. Douglas Devnich** has had a broad experience in addressing educational, religious, and socio-political themes in the public domain. His personal desire "to create better understanding among friends and to resolve conflicts among adversaries" has made Dr. Devnich an outspoken critic of Sunday closing laws, laws that he strongly believes are a direct violation of the *religious freedoms* that should be guaranteed us under the *Canadian Charter of Rights and Freedoms*.

As **Freedom Party's** Action Director, **Marc Emery** is walking proof that he doesn't just *talk* about principles, he *practises* them. Most importantly, he is willing to share the risk and consequence of his beliefs with others who have found that they no longer have to behave like criminals to be treated like criminals --- *by their own government*.

The proprietor of *City Lights Bookshop* in London, Emery recently found himself added to the list of victims of the *Retail Business Holidays Act*. The *unusual nature* of the circumstances surrounding the charges laid against him make his story both fascinating and entertaining. (On one occasion, Emery was charged *not* for *selling* anything on Sunday, but for *exercising his freedom of speech* in his store).

Robert Metz, provincial president and leader of Ontario's new, officially-registered **Freedom Party**, is the key driving force behind the party's provincial campaign to promote Sunday shopping as a matter of personal choice. His powerful arguments in defence of the freedom to shop on Sundays were presented to David Peterson's *Select Committee On Retail Store Hours*, where reaction of the all-party committee clearly confirmed the necessity of a new political alternative for Ontario.
